Features shown are the Pro-6^{HDV} Sideload system, illuminated levelling bubble, three levels of counterbalance and easy to adjust pan and tilt drag.

PRO-6 HDVM System

Weight:	7.25kg (16.0lb)
Consisting:	Pro-6 ^{HDV} head, tripod, mid-level spreader, soft case & multi-lingual operator guide

PRO-6 HDVF System

Weight:	7.35kg (16.2lb)
Consisting:	Pro-6 ^{HDV} head, tripod, floor spreader, soft case and multi-lingual operator guide

Continuously variable fluid pan and tilt drag and stepped counterbalance up to 6kg (13.2lbs) ensures that this lightweight head provides smooth movement and complete camera control.

Designed for the more discerning professional videographer, the Pro-6^{HDV} Sideload system allows for rapid camera attachment, adjustment and removal; three levels of counterbalance, plus a zero position for extremely lightweight camcorders; easy to adjust pan and tilt drag; positive pan and tilt brakes and an illuminated levelling bubble with low battery indicator for quick and convenient set up in low light situations.

Pro-6^{HDV} is available as an off the shelf head or incorporated into two lightweight systems with the Vinten Pozi-loc tripod, providing unrivalled torsional rigidity and positive action clamping; a branded black fabric system case and either the standard floor spreader (PRO-6HDVF) or the new lightweight mid-level spreader (PRO-6HDVM) offering a much wider range of stable foot prints for any location or terrain.
